St. Petersburg Florida

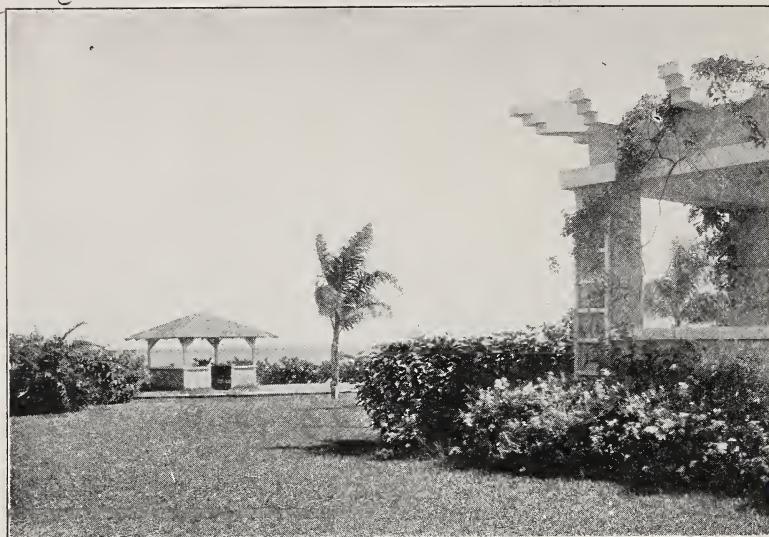

A Wedding Planting

Is Your Lawn Properly Planted?

When we plant the lawn we create an atmosphere favorable to moral and spiritual growth. A beautiful yard means much more than added selling value. A planting is good when the selection and location of the plants is in accordance with the fine relations between mass and open space (light and shade), which are the life of every worthy design in every art. This carefully-thought-out arrangement of the plants, walks, drives, etc., is Landscape Design.

A fine planting is a live asset to us as well as to you. Each home we beautify is a constant reminder to everybody that Design is the main thing.

For those customers who want a complete planting service, we maintain a PLANNING AND PLANTING DEPARTMENT. We have prepared and carried out hundreds of plantings and we can plant and carry out yours promptly. Our charge for plans and planting covers exactly the cost to us.

A House Border Designed by Us

Humus

The crying need of most Florida soils is Humus. With the exception of the land in and adjacent to old lake beds, there is no humus because of the ceaseless fires on the range for hundreds of years.

We attribute the uniform success of our plantings to the fact that we use plenty of humus. Humus holds moisture, retains chemical fertilizers and sweetens the soil by giving adequate aeration.

We quote from a Florida text book on agriculture: "Partly decayed vegetable matter in soil is called Humus. It improves a sandy soil because it increases its power to take and retain moisture, it supplies it with plant food. Humus is the main immediate source of nitrogen so necessary to plant growth. In the formation of humus other plant foods are set free." Again, from the Encyclopaedia Britannica: "Humus is especially present in peat bogs and also occurs in surface soils. It is one of the most important soil constituents; it is the chief source of nitrogenous food for plants, increasing its water-holding capacity."

We offer LAWNFOOD, a rich, lake-bottom humus, averaging about $2\frac{1}{2}$ per cent nitrogen, free of sand, at \$3.00 and \$3.50 per cubic yard, rough, and \$5.00 per cubic yard, finely pulverized, good for small plants and an unrivaled dressing for lawns.

Planting Results

Sand is a splendid soil when it contains enough humus. Holes should be large. We obtain excellent results with 1 part of dairy manure, 2 parts of humus and 3 parts of sand, well mixed. The earth should be well firmed with the feet and plants watered thoroughly at least three times a week for a month and kept moist thereafter until established.

Plant $\frac{1}{2}$ to 2 inches deeper than soil was in the pot and mulch in summer. Keep weeds and grass away from the plants. Do not straighten out the roots of pot-grown plants.

When we send you plants from open ground they are carefully cut back ready to plant.

Do not use chemical fertilizers until a month after planting, at which time there will be new fibrous roots to take it up. When properly set with plenty of humus, plants may be safely fertilized once a month, with any good chemical, and the growth will be greatly increased. Use one handful to each plant, well watered; dig it in and water freely.

As nearly all of our soils are very light, care must be used to keep the soil packed around newly-set plants.

Shrubs are more beautiful and healthier if pruned hard at the top at least twice a year, spring and fall. Some gardeners make little trees of them and destroy the richness and finish of the planting. On the other hand, most trees require that the lower branches be cut off frequently while they are young so that the grown tree will not have branches too low on the stem.

Desert Dates in St. Petersburg

Palms

CHRY SALIDOCARPUS lutescens, ARECA. A beautiful many-stemmed palm with pinnate leaves; trunk yellowish and ringed. Good conservatory plant. 75 cents to \$10 each.

COCOS alphonsei. A very hardy rather dwarf Cocos; leaves grayish. \$3.50 each.

C. australis, PINDO PALM. The dwarfest and hardiest and most beautiful of the hardy Cocos. Leaves a lovely gray-green and recurved to the ground; likes dry soil. 25 cents each; \$2 per 10. Larger, 50 cents to \$3 each.

C. eriospatha, HARDY COCOS. One of the hardiest Cocos; height, 15 feet; fronds recurved; pinnate somewhat gray-blue. 25 cents each, \$2 per 10; larger plants, \$1 to \$10 each.

COCOS nucifera, COMMERCIAL COCONUT. A beautiful palm, but tender to frost. \$2.50 and \$4.50 each.

C. plumosa, PLUMED COCONUT. A beautiful slender, smooth-trunked, pinnate palm, with magnificent recurved leaves. Nice plants, 25 cents to \$15 each, from pots.

CYCAS revoluta, SAGO PALM. Leaves delicate, pinnate, very dark green and shining. Fine for specimens and also for pots and boxes. 25 cents to \$5 each.

HYOPHORBE verschaffeltii. A fine palm for inside decoration, but rather tender for the open. It stands up for years in the house. Strong plants, \$5 each.

LATANIA borbonica, CHINESE FAN PALM. Hardy, slow grower with wide fan leaves; good for street or tubs. \$5 and \$10 each.

OREODOXA regia, ROYAL PALM. The most beautiful pinnate palms and grows tall; trunks very large, smooth, gray-white and is much used in protected sites. Strong, clean plants. 50 cents to \$10 each.

PHOENIX canariensis, CANARY ISLAND DATE. Largest trunk of any date and is very hardy and beautiful. Can use anywhere in Florida. We have a large assortment of sizes from 25 cents to \$12 each.

P. dactylifera, COMMERCIAL DATE. A tall, hardy tree, with gray-green leaves. 25 cents to \$1 each.

P. pumila. A delicate-leaved sort, fine out doors or in boxes and pots. 25 cents to \$2.50 each.

P. reclinata, RECLINING DATE PALM. One of the best and hardiest of the clump-producing type. We recommend it without hesitation. 50 cents each; \$4 per 10 to \$15 each for specimens.

P. reclinata var. leonensis. Heavier than reclinata and just as good. Strong plants in pots. \$4 and \$5 each.

P. rupicola, ROCK DATE. Good for lawn and a beauty in tubs. Leaves slender and graceful. 25 cents each, \$2 per 10; larger, 50 cents to \$5 each.

P. rupicola x reclinata. Slightly coarser than P. rupicola. Good out doors or in pots. Hardy 50, 75 cents and \$10 each.

P. spinosa, SPINY DATE. A good, hardy, plumpy palm, with many trunks, very spiny. New. 50 cents each; \$4 per 10.

A Group of Palms and Bamboos

PTYCHOSPERMA elegans, SEAFORTHIA PALM. One of the best palms for the house, but does not do well out-of-doors. Nice decorative plants. 50 cents, \$2.50 to \$10 each.

THRINAX parviflora, THATCH PALM. A beautiful little palm for the house or a tub; leaves slightly palmate; also hardy in open ground. 50 and 75 cents each.

WASHINGTONIA robusta, CALIFORNIA FAN PALM. One of the hardest as well as the fastest growing palms in the trade; giant fan leaves and large trunk; good for street or lawn; strong plants. 25 cents each; larger ones from open ground, balled, from \$1 to \$18 each.

Bamboos and Grasses

BAMBUSA argentea, SILVER BAMBOO. A rather tall sort, growing in dense clumps; quite hardy; does well in any soil; small clumps. 35 cents each; larger, \$1 to \$10 each.

B. argentea striata, SILVER BAMBOO. Like B. argentea, with silver stripe in leaves. 35 cents to \$10 each.

B. disticha, DWARF BAMBOO. Lovely dwarf plant, growing in thick clumps; very hardy and likes any soil. 35 cents to \$10 each.

B. nana var. alphonse karri. A strong growing kind, with rather large canes; striped green and gold; in dense clumps. 35 cents to \$10 each.

CORTADERIA argentea, PAMPAS GRASS. Grown for the tall clumps and the lovely plumes in autumn. Hardy 50 cents each.

DENDROCALAMUS latifolius. The hardest of the bamboos and the largest. Tub specimens. \$4 each.

Flowering Shrubs

ACACIA farnesiana, PONINAC. A delicate-leaved shrub, bearing intensely fragrant flowers of a clear yellow. Perfectly hardy and does well in a dry soil 35 cents each.

AZALEA indica, INDIAN AZALEA. This well-known plant is fine for winter bloom in pots. Likes a muck soil, moist and well-drained. \$1.50 each.

CAESALPINA pulcherrima, DWARF POINCIANA, the flower fence of the Barbados, bearing many brilliant red-and-yellow flowers. Leaves pinnate, rather small. Good for hedges. 25 and 50 cents each.

C. pulcherrima var. flava, YELLOW DWARF POINCIANA. A lovely pure yellow variety of the above. 50 cents each.

GALLISTEMON lanceolatus, BOTTLE BRUSH. A large shrub with slender leaves, and a rosy-pink flower in the Spring. \$1.00 each.

CESTRUM diurnum, DAY-BLOOMING JESSAMINE. A fast-growing evergreen shrub with rather small shining leaves. Flower small, white, very sweet. Open during the day. 25 cents each.

C. nocturnum, NIGHT-BLOOMING JESSAMINE. Six to twelve feet high, slender, creamy-yellow flowers, very fragrant; open only at night. 35 and 50 cents each.

DAEDALACANTHUS nervosus, BLUE SAGE. A small shrub with deep blue flowers which come only during Winter and early Spring. 50 cents each.

DATURA suaveolens, ANGEL'S TRUMPET. Rather large shrub, with immense leaves and flowers sometimes a foot long, white and very fragrant. 35 to 75 cents each.

DOMBEYA wallichii, PINK BALL. A large shrub from Madagascar with big cordate foliage and large balls of soft pink, sweet flowers in January. Bees love it. 50 cents, 75 cents and \$1 each. Specimens \$5.00 each.

DURANTA plumieri, GOLDEN DEWDROP. A tall shrub with small leaves and masses of delicate lilac flowers followed by persistent bunches of yellow fruits. A good one for hedges or single specimens. 25 and 50 cents each.

EUPHORBIA pulcherrima, POINSETTIA. Reaches ten feet; leaves large, the upper ones becoming bright vermillion red in mid-winter. Good for background masses. Needs trimming hard in the Spring and Fall. 25 and 50 cents each.

E. pulcherrima var, rosea, PINK POINSETTIA. A new plant, a sport of the preceding and a beauty. It is much easier to plant to it than to the old form. 50 cents each.

GARDENIA florida, CAPE JESSAMINE. Lovely dense bush with shining leaves and large, wax-white, very fragrant flowers. Hardy to cold, but needs mulching to keep away Nematodes. 25 and 50 cents.

GERANIUM. Fine small plants for winter bloom in pots or boxes. Come in various colors. 25 cents each.

CHINESE HIBISCUS. This lovely plant is the best of the flowering shrubs, succeeding well in nearly every kind of soil and makes fine specimens; is good in the house border and is a superlatively good hedge plant. It comes in a wide variety of colors in singles and doubles. We never have enough to go around. We have imported a quantity of entirely new kinds from the Tropics all around the world and have the finest collection in the United States.

HIBISCUS albo-laciiniatus. This is the finest we have ever seen. The flower is large, pure white, with a crimson heart and crimson veins radiating from the center over the white ground like a fairy spider web. A few plants only. 50 cents and \$1 each.

H. archeri. A new form in the trade with lovely scarlet flowers, curled petals and swinging from long stems. 50 cents each.

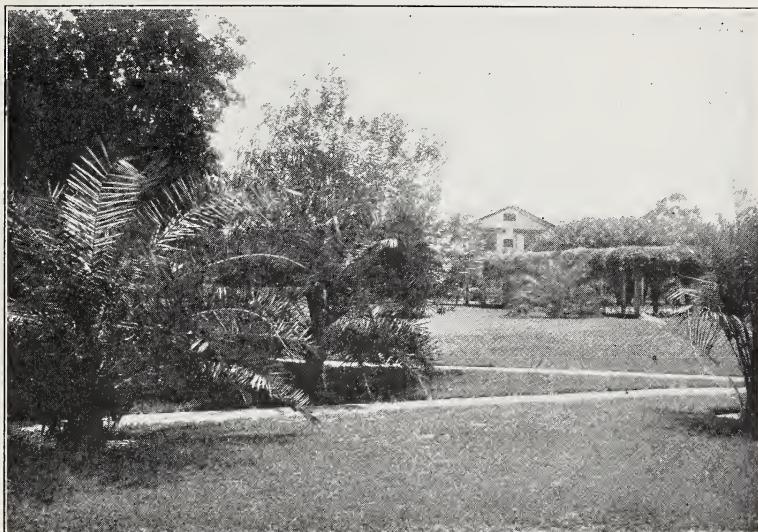

H. aureus. Large flower of a rich Venetian yellow, petals recurved. Never offered before. 50 cents each.

H. carneus pictus. A very free-blooming pink flowered sort. With white marks on back of petals. A strong grower. 25 and 50 cents.

H. childsi. 1 large dark scarlet flower, with purple nerves, slightly recurved petals. Makes a large plant. 50 cents each.

H. coccineus arrectus. A strong flower, with numerous small, leaning, dark-scarlet flowers. 25 and 50 cents each.

H. erubescens, BLUSHING HIBISCUS. A new kind, with small, flesh-pink flowers, almost transparent tint. A free bloomer and strong, rather upright grower. 50 cents each.

Another Wedding Landscape

H. euterpe. A strong growing kind, with salmon pink flowers, single and introduced by Reasoner Bros. This is a good one wherever planted. 25 and 50 cents each.

H. double pink. Very double, pink flowers, rather dwarf habit. 25 and 50 cents each.

H. lambertii. A single, pale-pink flower. 50 cents each.

H. ligulatus. This is a medium-sized plant bearing queer, open strap-shaped petals in two shades of pink. Single. 50 cents each.

H. lutea. A single yellow flower, very pale and pure. One of our best new ones. 50 cents each.

H. pallescens. A new single, dark pink, white lines. A very rich flower and has proven hardy here. 50 cents each.

H. peachblow. This is an old sort with exquisite, peach-pink, very double flowers. Everybody likes it. Strong plants. 25, 35 and 50 cents each.

H. purpureus. A new single flower, pink with shade of bronze running into purple near the throat. A very large-growing plant. 50 cents each.

H. schizopetalus, CORAL HIBISCUS. This beautiful cut petalled, scarlet flower swings on a long stem like a fairy lantern. 50 cents each.

H. sinensis-giganteus. A very large, dark scarlet flower, single and borne in great profusion. A favorite with all. Nice plants. 35 and 50 cents each.

H. spatulatus. A new pink single, with queer spatulate petals. Inclined to grow tall. Beautiful leaves. 50 cents each.

H. sub-violaceus. Very double pink flowers with shade of old rose. A strong growing, medium-sized plant. 25 and 50 cents.

H. superbus. A new single flower, soft pink with dark pink nerves and a deep crimson heart. 50 cents each.

H. toruslosus. A pale pink single, with large crimson center and very dark crimson veins. Leaves look like maple leaves. 50 cents each.

H. urania. A lovely salmon flower. A new seedling. 25 and 50 cents each.

H. versicolor. An old favorite. Flowers single scarlet with white back over part of each petal. 25 and 50 cents.

H. violescens. A new pink single with distinct touch of purple, 50 cents.

HYDRANGEA otaksa monstrosa. A large sort with big leaves and immense heads of flowers in the Spring, pink or blue, according to the soil. The only kind we have found a success in our soil. 50 cents each.

IXORA coccinea, FLAME-OF-THE-WOODS. A bushy-growing shrub with orange-red flowers in clusters, nearly always in bloom. The leaves rather small, very dark and shining. 75 cents.

JACOBINIA coccinea, BRAZILIAN PLUME PLANT. A splendid shrub for a shady place. Bears long spikes of crimson flowers. 25 cents each.

JASMINUM grand duke, BUTTON JASMINE. A low shrub, hardy; leaves dark green, flowers pure white, very fragrant and so double they resemble buttons. 75 cents each.

LAGERSTROEMIA flos-reginae, QUEEN CRAPE MYRTLE. This is a large shrub here. The flowers are twice the size of the ordinary kinds, of the richest royal purple. A few plants. 50 cents each.

L. indica. Good summer-blooming shrubs like the above with smaller flowers, but hardier plants. We offer carmine and pink. Strong plants from open ground. 40 cents each.

LANTANA. The Lantana resembles the Verbana, to which it is kin, with the advantage that it becomes woody and, if trimmed frequently, is always covered with flowers. Does well in a dry place. We have a large assortment of colors of the newest kinds at 25 cents each.

MALVAVISCUS arboreus, TURK'S CAP. This splendid shrub is one of the most popular of recent introductions. It thrives in poor soil and is literally covered all winter and most of the summer with heavy masses of warm scarlet flowers that resemble Abutilon.

Can be trimmed for specimen plant; makes fine house border or flowering hedge; beautiful plants \$.25 each; \$2.00 per 10.
.35 each; 3.00 per 10.
.50 each; 4.00 per 10.
1.00 each; 8.50 per 10.

An Entrance of Trimmed Oleanders

NERIUM oleander. The Oleander makes a large shrub or small tree; but with pruning may be kept at any height desired. It thrives in the poorest as well as the richest soils and seems to like best the poor soil of the sea shore. For hedges near the sea it is an excellent subject. It comes in many colors, both single and double and the foliage is a rich, dark green all the year. We offer the following:

N. atro-purpureum plenum. A rich velvety double red.

N. carneum. Very light flesh with pink lines in throat.

N. Dr. Golfin. A bright deep pink flower, large, almost red.
50 cents each.

N. Fredk. Guibert. Single, pale pink, throat crimson.
50 cents each.

N. Mme. Peyre. A prolific bloomer, double peach-pink, with
touch of yellow. 50 cents each.

N. Madonna grandiflora. Large double white and fragrant.

N. savort. Small, double pink flower, vigorous grower.
50 cents each.

N. single white. White and a very free bloomer.

N. splendens. Double pink, fragrant and the most persistent
bloomer. All Oleanders, 35, 50, 75 cents and \$1.00 each.

PLUMBAGO capensis, LEADWORT. A low bush with many
stems, perpetually covered with masses of light blue flowers. Hardy.
50 cents each.

RAPHIOLEPSIS japonica. A low, dense bush with very dark,
shining leaves and little flowers, like apple blossoms. Extremely
hardy. 50 cents each.

RUSSELIA elegantissima, CORAL PLANT. A drooping plant
which stands drought and is always full of slender coral red flowers.
Good in porch boxes and house border. 35 cents each.

STENOLOBIUM stans, YELLOW ELDER. A tall shrub covered with pure yellow flowers in the Fall. Fragrant and delicate. 25 cents each. Large plants \$3.00 each.

TABERNAEMONTANA grandiflora, CRAPE JESSAMINE. A heavy shrub with pure white, fragrant flowers and shining ovate leaves. 25 and 50 cents each.

THUNBERGIA erecta, KING'S MANTLE. A good shrub for a dry place, covered with trumpet-shaped royal purple flowers with yellow center and in bloom nearly all the year. 50 and 75 cents.

Roses

ROSA, The Rose. Grafted stock. 75 cents each; \$6.50 per 10; \$55.00 per 100.

KEYING: B—Bengal; CB—Climbing Bengal; CT—Climbing Tea; HP—Hybrid Perpetual; T—Tea; HT—Hybrid Tea; CHT—Climbing Hybrid Tea; CN—Climbing Noisette; Cl—Poly.

RED

AMERICAN BEAUTY. Large, full and upright. HP.

J. B. CLARK. An intense scarlet with cup-shaped blooms on stiff stems. One of the best. HP.

FREIHERR VON MARSCHALL. Strong-growing; foliage dark green; flowers dark, carmine red; buds long shapely, free bloomer. T.

RED RADIANCE. A large flower of same form and perfume as Pink Radiance. Long stems, good for cut flowers. T.

REINE MARIE HENRIETTE. Cherry red, does not fade, fine climber. CT.

PINK

MME. LAMBARD. Deep salmon-rose; buds well pointed; tints vary. T.

MINNIE FRANCIS. Buds long and pointed; dark pink in different shades. T.

PAUL NEYRON. Large light pink rose, very double, sometimes six inches across. HP.

PINK MAMAN COCHET. Beautiful, heavy buds on long stem. One of the best for cut flowers. T.

RADIANCE. Very large, shapely, rounded buds on long stems; open flowers, cup-shaped, scented. A favorite of the florist. HT.

WHITE

CLOTHILDE SOUPERT. White with delicate flesh tones; very fragrant and double; blooms in clusters. Cl. poly.

FRAU KARL DRUSCHKI. White American Beauty. Large shapely flowers. An old favorite. HP.

MADAM de WATTVILLE. Creamy white, double and fragrant. T.

MRS. DUDLEY CROSS. White with carmine edges. Well formed buds and heavy blooms. Strong grower. HT.

WHITE KILLARNEY. Fine long-pointed buds, flower open semi-double. Sport from Pink Killarney. HT.

WHITE MAMAN COCHET. Sport from pink Cochet. Buds long and heavy, pink on outer petal. T.

YELLOW

CHROMATELLA. Lemon yellow, buds long and pointed. Profuse bloomer. CN.

CL. PERLE DES JARDINS. One of the best climbing roses. Better than Marechal Niel. Free bloomer. CT.

ISABELLE SPRUNT. Strong grower, buds light yellow, free bloomer. T.

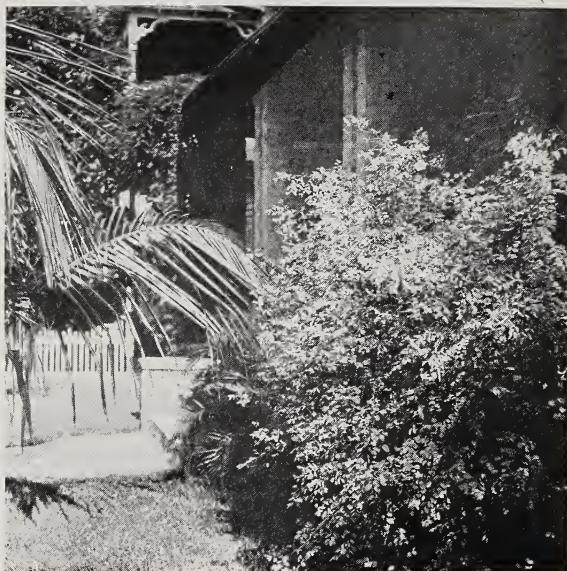

MARECHAL NIEL. The most famous of the Southern climbing roses. Flowers a clear, deep yellow, fragrant. CN.

MARIE VAN HOUTTE. Pale lemon yellow, with pink on edge of petal. Good buds. T.

SAFRANO. Strong grower, buds salmon, shapely; profuse bloomer. An old favorite. T.

A Section of Our Lathhouse

Calico Bush in a House Border

Foliage Plants

ACALYPHA godseffiana, DWARF COPPER LEAF. A low, bushy form, leaves green with creamy-white margins. Good for boxes. 25 and 50 cents each.

A. tricolor, FLAG OF FIRE. A vigorous shrub, leaves large; red, pink and green. Somewhat tender. 50 cents each.

A. wilkesiana var. marginata, COPPER LEAF. Foliage large, dense, pointed, coppery-green with light-pink margins changing to crimson. Good for hedges and splendid house border plant.

.25; \$2 per 10.
.50; \$4 per 10.

A. wilkesiana var. musaica, FIRE DRAGON. A low bushy shrub with somewhat folded leaves beautifully variegated in green, yellow, orange, pink and red. Fine house border or low hedge plant.

.25; \$2 per 10; .50 and .75 each.

A. wilkesiana var. obovata, COPPER LEAF. Resembles A. marginata except that during winter the leaves become obovate and it is harder. .25, \$2 per 10; .50, \$4 per 10.

ASPARAGUS plumosus, ASPARAGUS FERN. A good, delicate leaved climber, good as house vine and the sprays are useful in bouquets. 25 and 50 cents each.

A. sprengeri, CRYSTAL FEATHER. Coarser than A. plumosus and dwarfer. Hardy to cold and sun. Splendid in window boxes and pots. One of the best things for hanging baskets.

15, 35 and 75 cents each.

In wire hanging baskets \$2.50 and \$3.00 each.

CODIAEUM variegatum, CROTON. The most gorgeous colored shrub in the Tropics. In infinite variety of shapes and colored in wonderful combinations of green, red, yellow, chocolate, pink, white and bronze. .25, .50, .75 and \$1 each.

DIEFFENBACHIA nobilis. A charming member of the Arum family with large green leaves thickly sown with light-yellow spots of all sizes. Good for the house only. \$1.00 each.

LIGUSTRUM ovalifolium, CALIFORNIA PRIVET. A dense hedge plant, much used in the North, but does best here in rather damp soil if well-drained. 25 cents, \$2 per 10.

PANDANUS utilis, SCREW PINE. A rare screw-shaped plant, about halfway between palms and grasses, fine for large pots or porch boxes, or will make fine specimen on lawn in a protected place. 50 cents and 75 cents each.

P. veitchii, VARIEGATED SCREW PINE. Like the above, but bushier and variegated in green and creamy-white. 25 cents to \$10 each.

PHYLLANTHUS nivosus, SNOW BUSH. Fine for hedges; leaves variegated in white and green, new growth pure white. Rare. 25 and 50 cents each.

P. nivosus var. roseo-pictus CALICO BUSH. Like above, leaves variegated white, green, pink and red. Good border plant. 25 and 50 cents each.

PILEA muscosa, ARTILLERY PLANT. A fern-like plant, good in the shade and much used in pots and window boxes. 25 cents each.

PITTOSPORUM tobira. Symmetrical, dense hedge shrub, leaves leathery, thick and fragrant; flower white and fragrant. 50 cents and \$1 each.

P. tobira variegata, VARIEGATED PITTOSPORUM. Dwarfer than P. tobira and the leaves are variegated in green and creamy white, or light yellow. Fine in hedge, house border, or large pots. 50 cents each.

TELANTHERA amoena, ALTERNANTHERA. Lovely little low border plant much used in geometric gardening. Leaves green and red, turning red in winter. 5 cents each, \$3 per 100.

T. aurea nana compacta. Same as above, leaves green and gold. Almost wholly golden in winter. 5 cents each, \$3 per 100.

Climbing Plants

ALLAMANDA cathartica var. hendersonii, GOLDEN TRUMPET. Grows tall and heavy; leaves thick, leathery and very glossy; flowers trumpet-shaped, yellow with brownish tints outside of corolla. Strong plants. 35, 50 and 75 cents each.

ANTIGONON leptopus, MOUNTAIN ROSE. Rough, heart-shaped leaves; flowers in dense masses, light pink; grows very dense and tall. 25 cents each.

BIGNONIA speciosa, LAVENDER VINE. A tall-growing, broad-leaved vine, with lavender trumpet flowers. The foliage is very dark green. Quite hardy to cold and drought. 35 cents each.

B. unguis-cati, CAT'S CLAW BIGNONIA. Fast grower, leaves large, flowers yellow with orange lines in throat. Clings to a wall or tree. Blossoms in summer. 25 cents each, \$2 per 10.

A Bougainvillea

BOUGAINVILLEA glabra sanderiana, PAPER FLOWER. A very fast grower; a scandent shrub, but is a high climber; leaves dark and shining; flowers reddish purple and very numerous. Is frequently pruned into tree form. 35 cents each, \$3 per 10.

50 cents each; \$4 per 10.
Standards heavy, \$1 to \$5 each.

B. crimson lake, RED BOUGAINVILLEA. A new form with very large flowers of a rich crimson lake. Strong plants. \$2.50 each. Smaller plants, \$1.00 each.

CLERODENDRON thompsonae, BLEEDING HEART. A dense, quick-growing, climbing shrub literally covered with white and scarlet flowers. Summer bloomer. 25 cents each.

C. speciosum. A hybrid of *C. thompsonae* and is a good vine with profusion of dull red flowers, the calices of which are very persistent. 35 cents each.

CRYPTOSTEGIA grandiflora, PURPLE ALLAMANDA. Charming woody climber with large purple flowers. Good on fence or pergola. 25 cents each.

FICUS pumila var. minima, CREEPING FIG. A charming climbing vine, lying perfectly flat on a wall; perfectly hardy; does best on north side. 25 and 50 cents each.

GELSEMIUM sempervirens, CAROLINA YELLOW JASMINE. A good native vine with intensely sweet yellow flowers. 25 cents each.

JASMINUM gracillimum, STAR JESSAMINE. A hardy high-climber, stems hairy, leaves small; dense masses of slightly fragrant, white, star-shaped flowers nearly all the time. 35 and 50 cents.

J. maid of orleans. Strong grower, flowers semi-double, white, sweet smelling; foliage large. 25 cents and 50 cents each.

J. sambac, ARABIAN JESSAMINE. A fine scandent shrub with broad leaves and white, fragrant star flowers. 25 cents each.

LANTANA sellowiana, TRAILING PURPLE LANTANA. A delicate trailing shrub; stems wiry and dense masses of lilac flowers. Especially good in porch boxes and hanging baskets. 35 cents each; \$3 per 10.

NINTOOA japonica, JAPANESE HONEYSUCKLE. Perfectly hardy; leaves dark green and glossy; flowers white turning cream; very fragrant. Good for porch screens, fences or pergolas. One of the fastest growers and never hurts from cold.

25 and 35 cents each.

POTHOS aurea, HUNTER'S ROBE. A good clinging vine with immense leaves of green and gold. Will climb a palmetto.

25 cents each.

PYROSTEGIA venusta, FLAME VINE. The best vine in Florida. A rank grower after the first summer; will cover a porch, fence or pergola and is literally covered with orange-red trumpet flowers in mid-winter. Strong plants in pots. 50 cents each, \$4 per 10; larger, 75 cents each. Large plants \$1.50 to \$2 each.

SOLANDRA grandiflora, GOLDEN CUP. A good vine with gorgeous golden flowers in winter. Flowers nearly a foot long, fragrant. 50 cents each.

SOLANUM seaforthianum, TOMATILLO. A good quick-growing vine with heavy masses of lavender flowers, followed by bunches of cherry-like fruits. Mocking birds love them.

25 cents each; \$2 per 10.

S. wendlandii, PARADISE FLOWER. A rapid grower, with large cut leaves and quantities of large lilac flowers in summer.

50 cents each.

TECOMA capensis, CAPE HONEYSUCKLE. One of the best plants we have. Leaves dark green, flowers slender like honeysuckle but larger and bloom all winter. Good as a vine or a shrub.

35 and 50 cents each.

TETRASTIGMA harmandi, FILIPINO GRAPE. A high-growing vine from the Philippines. It bears quantities of grape-like fruits and is evergreen. 50 cents each.

THUNBERGIA fragrans, ANGEL VINE. A fine evergreen with continual pure white flowers. Good on fence or lattice.

25 cents each.

THUNBERGIA harrisi, BLUE THUNBERGIA. A very strong vine bearing heavy masses of light-blue flowers in winter. One of the best vines in the trade. \$1 and \$1.50 each.

TRACHELOSPERMUM jasminoides, MALAY JESSAMINE. Woody vine, quick grower, tall, leaves thick, very dark green; flowers small, waxy, pure white and very sweet. Hardy. 50 cents each.

The Plumed Coconut for Street Planting

Ferns

CIBOTIUM barometz, LAMB OF TARTARY. This is the best fern for the house border, especially on north or east side of the house. Not good in pots, as it needs root room.

Strong plants, 50 to 75 cents each.

NEPHROLEPIS bostoniensis, BOSTON FERN. This well-known kind needs no recommendation. Small, 25 cents each. In tubs, \$5 and \$6 each.

N. cordata compacta. An upright-growing kind, very hardy and recommended for the house border or in the shade on this account. 35 cents each.

N. davallioides furcans, FISHTAIL FERN, STAGHORN FERN. The loveliest and best for the house, but too tender for out-of-doors, as they hurt in the sun and cold.

35 cents each; large, in tubs, \$5 each.

N. elegantissima. A splendid tub or pot plant. Leaves delicate and compounded. 35 cents to \$5 each.

N. Jno. Wanamaker. A lovely plant for the house. It is necessary to see it to appreciate it. 35 cents each.

We have several kinds of ferns in galvanized hanging baskets for \$2.50 each.

Fruits

ABERIA, caffra, KEI APPLE. A thorny shrub from the Cape of Good Hope. It is used for hedges and the fruit is splendid for making an acid jelly. 50 cents each.

AMYGDALUS persica, THE PEACH. 2-3 ft., 40c; 3-4 ft., 60c; 4-6 ft., \$1.00 each. We offer Angel, Hall's Yellow, Jewell, Red Ceylon and Waldo.

ANANAS sativus, PINEAPPLE. After careful selection we offer Smooth Cayene as the best for local conditions. 15 cents each; \$10 per 100.

CARICA papaya, MELON PAWPAW. A good fruit for this section; beautiful and profitable. The fruit contains pepsin, which makes it good for dyspeptics. Nice plants.

25, 50 and 75 cents each.

CITRUS FRUITS

The price of all standard Citrus fruits are the same: 3-4 ft., \$1.10; \$10 per 10. 4-5 ft., \$1.60 each; \$15 per 10. 5-7 ft., \$2.25 each; \$20 per 10. 2 yr., \$3; 3 yr., \$4, and 4 yr., \$5 each.

CITRUS aurantiifolia, LIME. Tahiti for large, juicy fruit. Mexican, fruit smaller, but very prolific.

C. grandis, GRAPEFRUIT. Marsh seedless, Pernambuco and Silver Cluster.

C. japonica, KUMQUAT. We offer only the oblong variety at \$1.50 to \$5.00 each.

C. limonia, LEMON. Kenedy, Villa Franca and Ponderosa.

C. sinensis, SWEET ORANGE. Lue Gim Gong, Tardiff, Pineapple, Washington Navel, Tangerine.

DIOSPYROS kaki, JAPAN PERSIMMON. Tane Nashi, Hyakume, Tamopan, Tsuru and Zengi. 2-3 ft., 40c; 3-4 ft., 60c; 4-6 ft., 80c; larger, \$1.00 each.

ERIOBOTRYA japonica, LOQUAT. A fine fruit for preserving and the tree is a lovely ornamental, with big, rough, dark leaves and perfectly hardy. 35 cents to \$1 each, from pots.

EUGENIA uniflora, SURINAM CHERRY. This is a fine ornamental, good for hedges and the fruit is used for jelly making.

25 cents, \$2 per 10; larger plants, 50 cents each.

FICUS carica, FIG TREE. The fig does well in a clay soil, but can be fruited here in most soils if mulched to keep the ground cool. 2-3 ft., 45c; 3-4 ft., 60c; 4-5 ft., 80c each.

We offer Magnolia, Green Ischia, Brunswick and Celeste.

HICORIA pecan, PECAN TREE. This is a good tree and the better sort are a fine commercial proposition. We offer only the paper-shell varieties. 2-3 ft., \$1; 3-4 ft., \$1.25; 4-5 ft., \$1.60; 5-7 ft., \$2.00.

Delmas, Stuart, Success and Van Deman.

LUCUMA nervosa, EGG FRUIT. A small tropical fruit; very rare. \$1 each.

MANGIFERA indica, MANGO TREE. The mangos are fine fruits and do well, especially the better East Indian sorts. We offer the following:

Apple, Haden and Mulgoba seedlings, from pots, 50 and 75 cents each.

Mulgoba, Haden, Sandersha, Cambodiana, Rajpury and Red No. 11, all grafted and well established in pots, \$2.50 each, \$22.50 per 10; larger, \$4.00 each.

MORUS alba, MULBERRY. The mulberry is a fine shade tree and is especially good in a chicken run as they eat the fruit freely. We have Stubbs, Hicks and White. 2-3 ft., 40c; 3-4 ft., 55c; 4-6 ft., 75c each.

Avocado has come into its own with the advent of the hardy sorts, although the West Indian types are good in protected spots.

All Avocado seedlings, 50 and 75 cents each. We offer the following; \$2.50 each; hardier types, \$3 and \$4 each.

"The Petticoat Palm"

Mexican and Quatemalan sorts: Taft, Fuerte, Ganter, Linda, Northrup, San Sebastian, Knights and Queen, all budded.

PRUNUS, the PLUM. Plums do well if planted in groups with one plant of the wild native plum to pollinate the better ones. 2-3 ft., 40c; 3-4 ft., 55c; 4-6 ft., 75c each. We carry Abundance, Burbank and Terrell.

PSIDIUM cattleianum, RED CATTLEY GUAVA. A fine plant for hedges, for fruit and screens. Leaves thick and shining; quite hardy, strong plants. 35, 50 cents and \$1 each. Quantity prices on application.

P. cattleianum var. lucidum, YELLOW CATTLEY GUAVA. A sport of the Red Cattley and makes good jelly. The fruit is a clear yellow. 25 to 75 cents each.

VITIS rotundifolia, MUSCADINE GRAPE. The Muscadine is native and we offer only the better kinds of the improved sorts. 1 yr., 30c; 2 yr., 40c, and 3 yr., 50c each. We list James, Flowers, Scuppernong and Mish.

Trees

ADENANTHERA pavonina, RED SANDALWOOD TREE. A fine fern-like tree; flowers white and yellow; seeds brilliant and used for necklaces. 75 cents each.

ALBIZZIA lebbek, WOMAN'S TONGUE TREE. A spreading, quick-growing tree which does well near the sea; flowers smell like new-mown hay. 50 cents each.

AMERIMNON sissoo, DALBERGIA. A very fast grower with leaves something like the poplar. Makes a wide spread. 50 cents each.

BAUHINIA purpurea, MOUNTAIN EBONY. This is a round-headed tree, reaching 50 feet. The leaves are twins and the flower is orchid-like, purple and white. 50 cents each.

CARYOPHYLLUS jambos, ROSE APPLE. A lovely, dark green tree, spreading and a quick grower. The numerous flowers are white. 25 and 50 cents each.

CINNAMOMUM camphora, CAMPHOR TREE. The Camphor is a hardy, slow-growing tree, leaves medium-sized and shining. It makes a beautiful tree if trimmed to a standard when small. 15 cents each; \$1.25 per 100.

Larger plants from open ground, 50 cents, \$1 and \$3.50 each.

DELONIX regia, ROYAL POINCIANA. A fine pinnate tree, fern-like, spreading; flowers in profusion; bright scarlet with a touch of yellow; strong plants. \$2 each.

EUGENIA hookeriana. A new tree, rather small with shining leaves and symmetrical head. Likes full sun. 50 cents each.

FICUS altissima, TALL RUBBER TREE. A sturdy tree, with large leaves, and a fine quick shade tree. Very tropical.
50, 75 cents and \$1.00 each; specimens, \$2.50 each.

F. benjamina, WEEPING RUBBER TREE. A fast grower with weeping, rather slender leaves. Makes fine street tree. \$5 each.

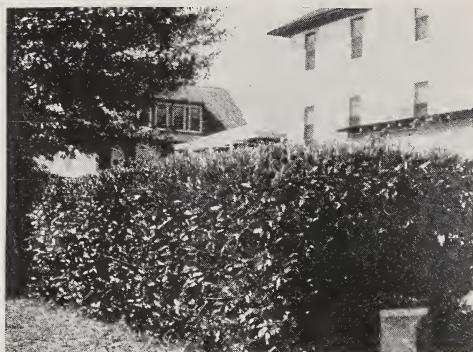

F. elastica, INDIAN RUBBER TREE. A spreading tree with aerial rootlets and long, broad, shining leaves; very dark green; rapid grower.
50, 75 cents, \$1 and \$2.50 each.

F. elastica variegata, VARIEGATED RUBBER. A green and yellow variegated form of the above; rare and beautiful. \$1.50 each.

F. utilis. A new rubber tree with very large leaves and a strong grower.
Strong plants, \$2.50 to \$5 each.

GREVILLEA robusta, AUSTRALIAN SILK OAK. A large, fern-leaved hardy shade tree. Grows quickly and is covered with yellow flowers in the Spring; good bee tree; if pollarded makes a good shape.
15, 25 and 50 cents each.

JACARANDA mimosaeifolia, PURPLE FERN TREE. This tree looks like a giant fern; flowers in spring of a deep mauve; a wonderful sight when in flower.
50 cents each.

Carolina Laurel Cherry Hedge

LAUROCERASUS caroliniana, CAROLINA LAUREL CHERRY. A small, symmetrical tree with shining leaves and white fragrant flowers. It is also very good for hedges if trimmed properly. Absolutely hardy here; likes dry soil.
35 and 50 cents each.

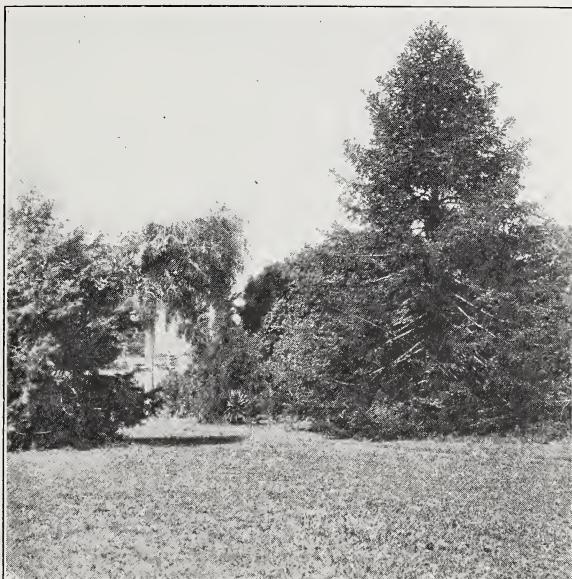

MAGNOLIA grandiflora, BULL BAY. Large evergreen tree, with immense shining leaves; flowers in spring, pure white, 8 inches across and fragrant; perfectly hardy, but does best in damp soil.
50 cents to \$5.00 each.

PITHECOLOBIUM dulce, MANILA TAMARIND. A large tree, with small, light-green leaves; flower white, followed by twisted fruit pod with edible aril; is extra good by the sea; strong plants.
75 cents each; larger \$3.00 each.

QUERCUS nigra aquatica, WATER OAK. This is by far the best of the native shade trees. It grows quickly in a wide variety of soils and has a very symmetrical spreading head.

We offer strong plants, 2-3 inch in diameter, at \$2.50 each; 3-4 inch diameter at \$4 each. Quantity prices on application.

SCHINUS terebinthifolius, BRAZILIAN PEPPER TREE. A tall, rapid grower, with broad, dark-green leaves. The persistent red fruits in winter resemble the well-known holly. 25 and 50 cents each.

Conifers

ARAUCARIA bidwillii, BUNYA-BUNYA PINE. A hardy symmetrical tree with stiff pointed leaves; a beauty. \$2 and \$3 each.

CASUARINA cunninghami. A new hardy form of the well-known beef wood; likes a situation by the sea. 50 cents each.

C. equisetifolia, AUSTRALIAN PINE. Very tall tree with thick, pale foliage; grows very fast and succeeds best near the sea and even in brackish soil; strong young plants. 50 and 75 cents each.

JUNIPERUS barbadensis, RED CEDAR. The well-known Cedar tree grown everywhere, but does best near the sea, as it likes lime. 50 cents to \$3.50 each.

THUYA auera nana, GOLDEN DWARF ARBORVITAE. A very dwarf sort with very dense golden-tipped foliage; fine as specimen or in tubs. 1 to 2 ft., \$2.50 each; 2-3 ft., \$3.50 each; 3-4 ft., \$5.00 each.

THUYA orientalis compacta, CHINESE ARBORVITAE. A compact symmetrical form; foliage dark green. 2-3 ft., \$3.50; 3-4 ft., \$5.00 each.

Succulent Plants

AMARYLLIS vittata. Very large flowered kind from extra fine imported plants. 50 cents each; \$4 per 10.

A. vittata hybrids. A large assortment of colors from local cross-pollinations; colors from white and red to pink and dark red; immense flowers. 50 cents each; \$4 per 10.

CANNA. We offer a large assortment of the very newest Cannas in white, cream, red and all the new pinks; strong plants. 25 cents each.

CRINUM. The crinums do well in Florida, requiring little attention and they stand the cold well. The blooms are beautiful and last well as cut flowers. We offer:

C. capense. Leaves long, strap-shaped; flowers six to twelve in a bunch; white inside, red outside. Hardy. 50 cents each.

C. capense rosea. Like above; flowers white and pink. 50 cents each.

C. fimbriatum. Leaves 4-5 ft. long; blossoms white with a red keel; stands 2 ft. high. 50 cents each.

C. kirkii. Bulk 6-8 inches in diameter; flower very large, fragrant, white with pink line inside of throat. 50 cents each.

C. kunthianum. Flowers in umbel, 4-5 pure white. 50 cents each.

HEDYCHIUM coronarium, GINGER LILY. A water-loving plant, 3-4 ft. high, bearing numerous pure white flowers with strong fragrance. 25 cents each; \$2 per 10.

IRIS hexagona, BLUE FLAG. The only Iris that succeeds in Florida. Grows best in water or damp soil; flower lilac, yellow and blue in the spring. 15 cents each.

MUSA cavendishii, THE BANANA. A low-growing sort, suckers freely, and bears quantities of small, fine-flavored fruits. 25 and 50 cents each.

M. Hart's Choice. Taller growing and stands more cold; fruit small and delicious. 25 and 50 cents each.
